THE COAL SITUATION

The full effect of the coal strike will become more noticeable by the latter part of the week. Several events have transpired to cloud the real strength of the movement but within a short time we should be able to tell exactly how the situation is going to lineup. Of course there will be thousands of union miners idle until the strike is declared off by their leaders, but at the same time there are other thousands of miners who are not subject to the unions who will continue at work. In West Virginia and in this state there are many mines which are not organized, and if they continue to work as it is promised they will be able to determine the production really is.

Of course the output of the mines will be greatly reduced and will remain so until such time as the differences between the miner and the operator have been adjusted. In the meantime fuel must be produced from some source, for present conditions cannot continue indefinitely. To do so would tie up every industry in the United States, and to bring suffering to thousands upon thousands of people. It is the immensity of the thing that will really lead to an adjustment. If the strike had been merely local, the deficiency could have been made up, but when it covers so much territory and concerns so many people, not only producers but consumers as well, it is necessary for the government to take a definite attitude in order to protect the public. And this applies to both sides of the controversy.

GROWING COAL TRADE

The comparative statement made in the Mail of Monday, showing that the shipments of coal through Lock 4 for the last three months exceeded the total tonnage of Lock No. 1 at Pittsburgh for the year 1918 gives an idea of the immense increase in coal tonnage that has taken place during the present year.

We all thought that 1918 was a great year for tonnage of all kinds, and it was. Spurred on by the necessities of the war, every line of production was pushed along at high speed in order to supply the various needs of the government for war purposes. Not only the mills but the mines as well, and every possible coal workings were at once utilized in the way of production. The total figures for 1918 were immense but even with all the stimulation for that year, it looks as if 1919, a year of comparative peace, would break the records made the previous year. Almost one hundred million bushels of coal were shipped through Lock No. 4 in three months, in itself a splendid record. Not so many years ago that would have been an amazing total for the entire output of the Monongahela valley. It is almost five times the annual amount shipped from Pittsburgh to the Cincinnati market when much of the product of the valley was being sent south; but now, with increased industries and more manufacturing plants it takes practically the entire output of the Western district of Pennsylvania to take care of our local needs. Indeed it is not an impossibility that within a few years it will be necessary to tow coal up the Ohio river into the Pittsburgh harbor to assist in looking after our fuel supply. The growth of the Pittsburgh district in the past decade has been wonderful, the full import of which will be realized when the census of 1920 has been made public.

"I have been a great sufferer from stomach trouble and gall stones. No one knows the pains I have suffered. Since taking the first dose of Mayr's Wonderful Remedy am feeling fine, can work all day and eat anything I want. Have no more distress or palpitation of the heart; from gas on my stomach. I have spent a great deal of money on doctors and medicine but got nothing to help me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by all Druggists.

W. & J. GLEE TO APPEAR IN CHARLEROI

Superintendent Pollock of the public schools is in receipt of a letter from C. E. Hawkins, manager of the Washington and Jefferson College Musical Clubs, stating that the organization would give a concert in Charlottesville, Thursday evening, February 5th, 1920. An additional feature, which will make the coming of this club a feature is the fact that the leader is Ernest O. Dorbritz, a graduate of the Charlottesville High schools.

Miss Margaret Cunningham of Somerset, who is a student at Margaret Morrison school, visited with Miss Carrie Anderson of Crest avenue.

FOR SALE

We have the only Plan of Lots in Charlottesville and adjoining Charlottesville for sale for Cash or payments and to receive terms see your agent or us.

We also have a good list of houses for sale on cash or payments and a few houses on Fallowfield avenue at reduced prices.

Do You Remember--November 11

that day last year when we all went wild--threw our hats in the air, rang the bells and blew the whistles in sheer delight because the signing of the armistice meant the end of the war?

It was the end of a period of destruction during which we "went without," that production might center on materials for war.

On the anniversary of Armistice Day, November 11, let all Americans pledge themselves to work together and stop waste. Only in this way can we make up the years of lost production and again know peace with plenty.

COAL IS BEING HELD BY GOVERNMENT ORDER

It is reported that no less than 50,000 cars of coal were on side tracks in the Pittsburgh district Monday night, confiscated by the government for use should the coal strike continue, for the operation of railroads and essential industries.

Furnace going full blast—only using one room!

Coal costs too much to waste these days. Then why feed the furnace, just to keep one room comfortable?

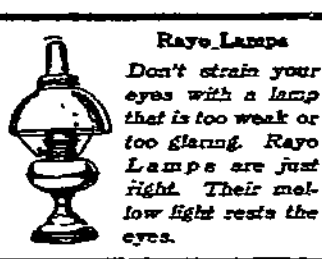

It's entirely unnecessary. A Perfection Oil Heater will give ample heat for any room and you can carry it with you from place to place.

PERFECTION OIL HEATERS

No mussing with coal or wood, no waiting for the fire to "burn up"; a Perfection lights at the touch of a match and gives off full heat at once.

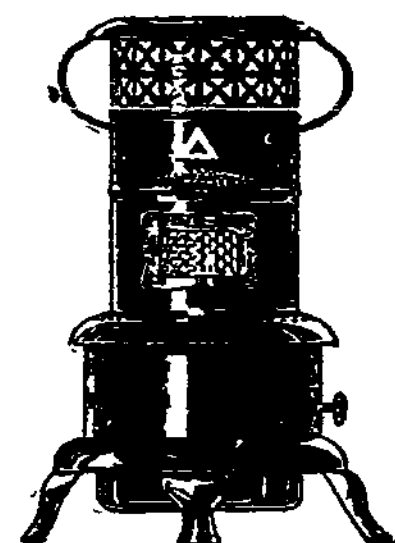

Smokeless, odorless and absolutely safe. You can't turn the wick too high.

This handy heater will save you at least a ton of coal this fall and help keep fuel bills down all winter long.

Rayo Lamp
Don't strain your eyes with a lamp that is too weak or too glaring. Rayo Lamps are just right. Their low light rests the eyes.

See the various models at your dealer's today—you'll be surprised how inexpensive they are.

ATLANTIC RAYOLIGHT OIL
Costs no more than ordinary kerosene and one gallon will burn for ten hours in your Perfection Oil Heater. Best for Rayo Lamps, too.

Outfitting The Boy FOR THE WINTER

is a question that generally presents itself to fathers and mothers at this season of the year, but it is of more importance this year than ever for there are so many clothes of shoddy.

A boy's suit must be all wool to give service and no other sort of clothing can possibly find its way into our Boys' Clothing Department. You'll find some plain shades, such as brown, gray and blue, as well as some good mixtures that will appeal to the little fellow and the prices will appeal to father. The models are waist seam, full belted, back belt or plain.

then there's shirts

waists, ties, collars, caps, hats, underwear, stockings, sweaters and mackinaws--all to be had at this one store and all correct as to quality and price.

Our extensive assortments are always sure to give more satisfaction than the place where selections are limited by extensiveness of stocks.

Electric Power Is a Necessity

Companies supplying electric power are dealing in a necessity--not a luxury. The West Penn is serving a territory in which the demand for power is almost unlimited. The power business of the System has more than doubled in the past five years--AND IS STILL GROWING.

This power business is back of West Penn Railways Company Preferred Stock and the earnings from this business paid to the Railway Company are more than enough to pay the dividends on this stock.

Dr. Harvey W. Wiley stated before Congress:
that he "found margarine palatable, pure and more nutritious than butter". Dr. Harvey Wiley is one of the recognized food experts in the world today.

And this was said before we had created and perfected our new product, "DIXIE".

Now we have a product that is more palatable, purer and more nutritious than any other margarine ever made before.

Hundreds of cans of milk and cream are received at the big Moxley Churnery daily from our inspected dairies.

Below is a picture of just one of a large number of daily shipments as they come into our plant. How we again clarify

this milk and cream after it comes to us, how we again pasteurize* it, is reserved for a later article. But this you may know now:

No creamery butter for which you paid the highest market price was ever purer or more carefully made than this new "DIXIE" Margarine, the latest product of the Moxley churns.

Here is one way to bring down your cost of living immediately. Try it and you will buy it as long as you live.

*Ask your family physician or write to your Health Commissioner and find out just what pasteurization means and how important it is.

IMAGINATION!

SOMETIMES A BAD THING

Some of us are very ready to believe in taking medicines at the first sign of illness or feeling "out of sorts." Don't ruin your stomach and your entire system by loading up with medicines complicated with various drugs and chemicals that may do you real harm. Keep your bowels open, your stomach clean, and your blood rich and strong. B.A.-H.A.-NI is the best thing you can find to regulate you. Try a tablet with your evening meals and see how soon you are feeling fit and how regular your bowels will be. Don't let yourself imagine you're sick half the time. When you feel a little "slow" get a 25c or 50c box of B.A.-H.A.-NI and get right! Be regular. Sold by Hennings Drug store and all druggists.
